OFFICE OF THE MAYOR &
BUSINESS ADMINISTRATION

Dear Mr. Schablik:

On behalf of the Highlands Water Protection and Planning Council (Highlands Council), I am writing in response to your inquiries and submissions regarding the above referenced properties.

The Regional Master Plan (RMP) Updates Program is designed to coordinate the exchange and verification of updated, relevant factual information. This ensures that the Highlands Council and its municipalities will be using the most current data during Plan implementation. We ask that you address your request to the municipality so they can work with the Highlands Council to address RMP Updates comprehensively for lands within their jurisdiction.

During Plan implementation the Highlands Council will be working with municipalities to comprehensively collect and verify RMP Updates. I have attached a list of requirements to address various types of RMP Updates.

Very truly yours,

Eileen Swan
Executive Director
