S-1303/A-3062 "Inherently Beneficial Uses" with Sample Resolutions

The League opposes [S-1303/A-3062](#), which defines "inherently beneficial use" and includes facilities that supply electrical energy produced from wind, solar or photovoltaic technologies. If a use is deemed to be "inherently beneficial" it presumptively satisfied the criteria for a use variance under subsection d of section 57 of the MLUL, (i.e., a nonconforming use.) Thus, these uses would be considered inherently beneficial, even in residential zones.

American Recovery and Reinvestment Act (ARRA)

On October 1st, Governor Corzine's New Jersey Recovery Accountability Task Force and New Jersey League of Municipalities co-hosted a seminar for municipal officials that received American Recovery and Reinvestment Act (ARRA) funds directly from the Federal government. The Recovery Recipient Reporting Seminar offered vital information about reporting requirements required under ARRA.

State of New Jersey H1N1 Influenza Update **Week of October 5th**

Municipal Officials should disseminate this to their constituents. Please feel free to add a link to the League's web site Flu Resource Center.
