RE: Deficiency Letter for Letter of Interpretation - Line Verification
File No.: 1427-08-0004.1 (FWW 080001)

Applicant: New Jersey Foreign Trade Zone Venture, LLC; Rock-Morris, Inc.,
member
Block: 103; Lot: 2.04
Mount Olive Township, Morris County

Dear Mr. Auffenorde:

I am writing with regard to the above referenced application for a Letter of Interpretation – Line Verification. Based upon my site inspection of February 13, 2009, the submitted mapping is deficient with regard to the following:

1. Additional wetlands are present on the property in the form of a swale which drains to the depicted wetlands, between points “WB-2” and WB-3”. I placed a flag at the top of the swale, where the wetlands begin. Attached is a general sketch of the additional wetlands for general information purposes only. This wetland swale needs to be flagged and surveyed for inclusion on a revised Wetland Map.

Please send the revised mapping within 60 days of the date of this letter so that the Division can finalize its review. You may call me at (609) 777-0454 with any questions on this application.

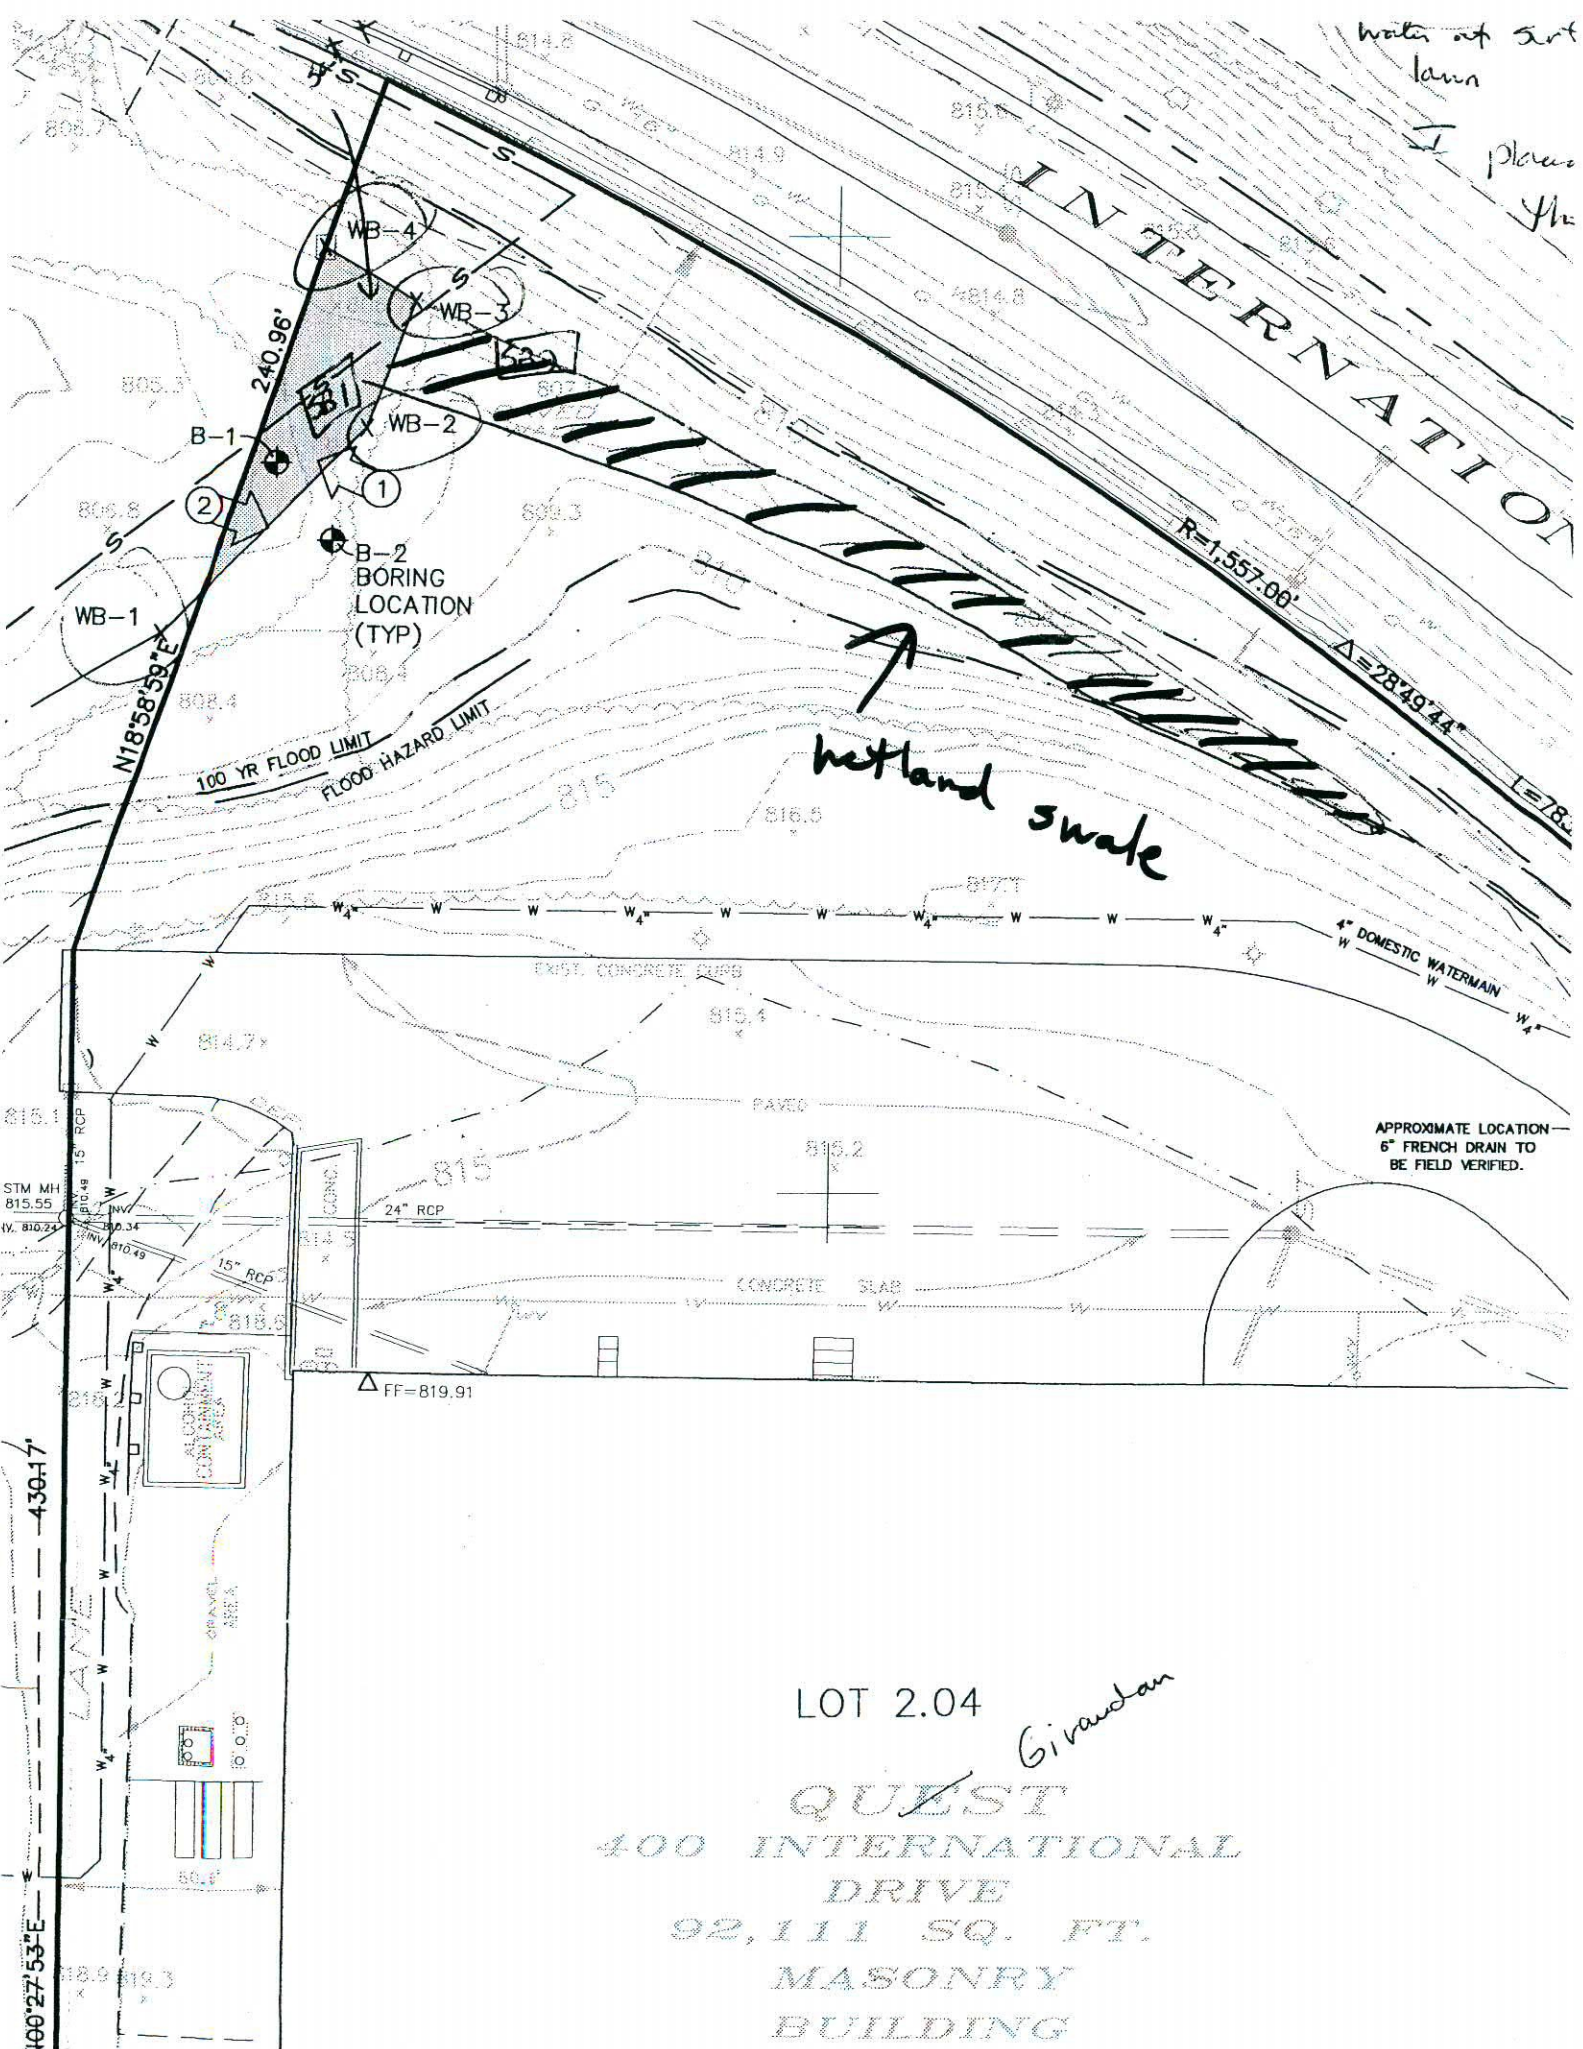

Sincerely,

Susan Michniewski
Bureau of Inland Regulation
