Dear Local City Official,

The challenges facing communities require leaders who can make intentional and informed decisions with a variety of approaches to bring forward successful change and solutions. Often municipal officials and cities have invested in the skills and structures of change, but have forgotten the more intangible quality of spirit or inspiration, resulting in changes that are short lived or never transpire. Join renowned authors and leadership scholars as you engage in a dynamic and reflective program that will help guide your work and leadership in local government. [Download Summit brochure.](#)
