On behalf of Out to Bid, we would like to inform you of our service and how it will benefit your municipality. As a public entity, do you desire to increase the number of qualified bidders on your public projects? Would your municipality benefit from better quality of workmanship from your bidding contractors? Would you also like to increase the competition among bidding contractors thereby decreasing project costs? If the answers to these questions are yes, then we at Out to Bid have the solution.

The purpose of our website is to assist contractors in locating upcoming public works contracts. Simply put, our mission is twofold: (1) to provide an alternative, electronic means of notification to our subscribers of available public works contracts throughout the State, and (2) to increase the number of competitive bidders on municipal and public entity projects. Our system of notification will promote increased bidders on your municipal projects, better cost analysis and quality workmanship. The best part about our service is that it is free for participating municipalities, unlike similar services provided by our competitors.

We would like to speak with a representative from your public entity to set up your account with Out to BID. The sooner we set up your account, the sooner your municipality will start to realize the benefits and savings. Please contact us at (973) 908-9942 or by email at customersupport@outtobidnj.com at your earliest convenience.

We appreciate your attention and assistance to the foregoing.
