

5th Annual Morris County Municipal Summit

Who Should Attend

Elected Officials

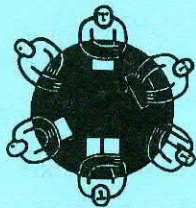

Municipal Managers and Administrators

Planning Board Members

Board of Adjustment Members

Economic Development &
Redevelopment Committee Members

Engineers, planners, and attorneys
who advise municipalities on land use,
zoning, and permitting issues

Why

The Summit's objective is to provide municipal leaders with ideas and tools that they can bring back and apply to specific issues and challenges confronting their local communities.

Is your municipality asking any of the following questions? If so, then you should be registering for the Summit!

Would your municipality like to see its downtown thrive?

Could your municipality use mapping and geographic information to support informed decision making in its planning efforts?

Do you want to know how to improve the environmental quality and economic vitality in your municipality through the use of geographic information systems (GIS)?

What do you need to know about organizing a special improvement district (SID)?

What are the Department of Community Affairs's priorities for budget year 2008-2009 and how can your municipality benefit?

Would your community like to generate financing for capital improvements and more attractive streetscapes?

How can a special improvement district (SID) institute services not currently provided such as sidewalk cleaning and the marketing and promotion of businesses?

How can my municipality benefit from a special improvement district (SID) if it does not have a traditional downtown?
