

State of New Jersey

DEPARTMENT OF ENVIRONMENTAL PROTECTION

JON S. CORZINE
Governor

MARK N. MAURIELLO
Acting Commissioner

Dear Mayors and Local Officials,

Acting DEP Commissioner Mark Mauriello is inviting you to a Mayors' Roundtable, which will provide an update on Brownfields redevelopment and site remediation programs and possibilities in our Garden State, pursuant to the recently enacted Site Remediation Reform Act. Find out about Funding to investigate, remediate and redevelop contaminated sites through grant programs administered by the DEP and the New Jersey Economic Development Authority. DEP staff will be there to provide information about how your municipality can benefit by these programs. A consultation period at the end of the meeting will provide you with an opportunity to meet individually with DEP personnel to discuss the topics that most interest you.

The Roundtable Session on Remediation and Redevelopment will run **from 1:00 to 5:30** in the ITC Conference Room at 300 Riverview Plaza, Trenton. There is no charge for the DEP Program. Please plan to attend and RSVP to lynette.lurig@dep.state.nj.us or call the DEP Office of Community Relations at (609) 984-3081 for more information.

Following the Roundtable, there is a League of Municipality Day at Trenton Thunder Ball Park, which is only a few steps away from the Roundtable location. There will be many local officials from throughout the state in attendance at the conference, and many will be attending the game. The baseball game may be a good opportunity to meet some mayors and other officials.
