Re: Remedial Action Workplan (RAW) Approval
NJPDES Permit by Rule Approval
24 Kenmar Road, Mount Olive, Morris County
PI # 456667
Block 2001, Lot 27
Incident # 06-07-28-1104-48
File # 14-27-256

Dear Mr. Gaccione:

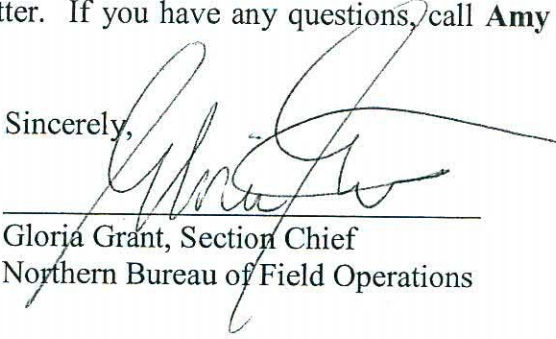

The New Jersey Department of Environmental Protection (Department) has completed review of the Remedial Action Workplan (RAW) and corresponding addendum received on February 18, 2008 and May 28, 2009, respectively. The Department has determined that the RAW is in compliance with the Technical Requirements for Site Remediation, N.J.A.C. 7:26E and other applicable requirements. The Department hereby approves the RAW, effective the date of this letter.

The approved discharge of Regenesis ORC[®] through borings must be conducted in conformance with the submitted proposal.

Pursuant to the schedule applicable to the site you shall submit a Remedial Action Report (RAR) on May 1, 2010. Please submit the document by that date, or submit a written request for an extension at least 2 weeks prior to the due date. Failure to submit the RAR in accordance with the schedule may result in the initiation of enforcement action. For your convenience, the regulations concerning the Department's remediation requirements can be found at <http://www.state.nj.us/dep/srp/regs/>.

Thank you for your cooperation in this matter. If you have any questions, call Amy DaSilva, Case Manager, at (973) 656-4433.

Sincerely,

Gloria Grant, Section Chief
Northern Bureau of Field Operations
