Reference: Notification of Environmental Investigation

Dear Sir/Madam:

Motiva Enterprises, LLC (Motiva) is investigating environmental conditions at 35 Route 46 East, Budd Lake, NJ, tax block 4102 and lot 1 (the "property"), in order to determine the presence or absence of petroleum-related constituents potentially resulting from gasoline station operation for which the New Jersey Department of Environmental Protection (NJDEP) has established soil and groundwater quality standards. The investigation has identified the presence of petroleum-related constituents in groundwater and/or soil at the property.

Under "Notification and Public Outreach" rules recently established by the NJDEP (N.J.A.C. 7:26E), this notification is being provided to all owners and tenants within 200 feet of the property boundary to promote awareness that an environmental investigation is being conducted at the property. The NJDEP has assigned Preferred Identification Number 011078 to the environmental investigation. This notification is just for your awareness. No action on your part is needed.

It has been determined that the groundwater and/or soil impact does not extend beyond the property boundary. The environmental investigation is proceeding in accordance with NJDEP requirements.

A copy of reports submitted to the NJDEP related to the environmental investigation for this site will be made available to Mount Olive Township upon Mount Olive Township's request. If you have questions about the environmental investigation, you may contact Motiva toll-free at (877) 484-7948, or write to P.O. Box 250, Bedminster, NJ 07921. If you have questions about the NJDEP's "Notification and Public Outreach" rules, please contact the NJDEP Office of Community Relations at (609) 984-3081.
