RE: Cholish, Program Interest No. 435434, Activity No. CSD080016

Dear Mr. Olawski:

In response to your letter of August 25, 2008, addressed to Mr. Cholish, property owner, I wish to offer the following.

You have indicated in the second paragraph on page 2 that there appears to be construction activity on the subject property. There has been no such activity. Our investigation has revealed that the adjoining property owner did replace a septic system in his rear yard. However, access was not gained across Lot 29 owned by Mr. Cholish. The adjoining property owner (Lot 30) is constructing a low boundary wall along the property line near Bartley-Long Valley Road with stones unearthed during the septic system construction process. However, that activity also is entirely on Lot 30 and not the subject property.

You have also requested additional items of information, which are numbered on page 2 of your letter. My response is as follows.

Item 1. The survey/plot plan has been revised (9/16/08) to add a narrative description of the proposed disturbance area. Said area contains 0.999 acre.

Item 2. The revised plan previously noted in Item 1 has not been revised to reflect any existing disturbance, particularly along the common lot line with Lot 30, as there is none. Consequently, there are no areas on site where structures must be removed or restored. Supporting calculations for proposed impervious surfaces and the proposed disturbance area are shown in details on the drawing.

Item 3. A letter from Mount Olive Township Tax Assessor Jack Marchione, dated September 9, 2008, addressed to Mr. Cholish, addresses the tax lot identification issue.

Also enclosed herewith is a set of four photos of the property centered on the common boundary line between Lots 29 and 30 where disturbance has been alleged. The survey/plot plan has been revised to include a photographic key.

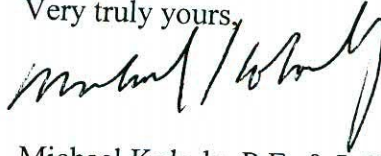

Mr. Jeffrey Olawski

Re: Block 6900, Lot 29  
28-1 Bartley Rd.  
Long Valley, NJ 07853

Dear Mr. Cholish,

Please be advised I have researched the above-mentioned property. When you purchased this property in the year 1988, it was known as Block 362, Lot 27.04 as identified on your deed dated October 28, 1988. Sometime around 1990 or 1991, the property identification was changed to Block 6900, Lot 29.

I hope this answers your questions.

Sincerely,

Jack Marchione  
Tax Assessor
