**Re: Public Notification
Inactive Exxon Service Station #32544
257 State Route 206
Flanders, Morris County, New Jersey
NJDEP Case #08-02-28-1251-32
UST# 0081365
PI# 008136**

Dear Sir/Madam:

Kleinfelder East, Inc., on behalf of ExxonMobil Environmental Services Company (ExxonMobil), is currently investigating environmental conditions at the inactive Exxon Service station located at 257 State Route 206, in Flanders, New Jersey, Block: 5401, Lot: 17. As part of this investigation, we have tested the groundwater and soil at this service station for the presence of certain compounds found in petroleum fuels for which the State of New Jersey (the State) has established groundwater and soil quality standards. Based on the results of these tests, we have determined that some of the compounds have been found in the groundwater within the property boundaries.

As required by the State, ExxonMobil is providing notice of the continuing environmental investigation at this property. Further, copies of environmental reports will be provided to the municipality upon their request. Our future work will include continued groundwater and soil sampling. The work will be done under guidelines established by the New Jersey Department of Environmental Protection (NJDEP), which has assigned it case number 08-02-28-1251-32.

ExxonMobil is working with the NJDEP to complete the environmental work at this site. In the meantime, please let us know if you have any questions. We can be reached at 888-584-2645. You may also contact the NJDEP case manager, providing State oversight, Mr. Rafael Rivera, at 609-633-1435, or the NJDEP Office of Community Relations at 609-984-3081.

Sincerely,
KLEINFELDER EAST, INC.

Blake Thompson
