Re: **Mount Olive W.D. Goldmine**
PWSID No. NJ1427002
Permit Application No. WCP080003

Dear Mr. Applegate:

Your application dated June 19th, 2007 for a Construct New GW Source & Treatment Permit to construct, modify and operate Public Water Works has been reviewed and determined to be **ADMINISTRATIVELY COMPLETE**. This application proposes new source of water supply comprised of Well No. 2, a 34 GPM well with a new well house providing polyphosphate as a corrosion inhibitor & calcium hypochlorite feed system for disinfection replacing Well No. 1, located within Block No. 7600, Lot No. 71 in Mount Olive Township, Morris County, New Jersey.

Accordingly, your application has been assigned for technical review to Wade Wertman. Please note that during technical review, the assigned reviewer may request additional information.

Please note that the regulations at N.J.A.C 7:10-11.5(i) specify that the engineering plans submitted with an application need to meet the requirement that. "Plans shall include construction drawings in sufficient detail to facilitate examination of and comprehension of the proposed water system." Therefore any submission particularly water main extensions that includes additional drawings which do not facilitate comprehension of the proposed water system, such as soil erosion control, landscaping, street lighting, etc are unlikely to comply with this requirement. Please be advised that in future such applications will be determined Administratively Incomplete for the failure to submit adequate drawings and the drawings will be returned for correction. Generally the drawings that are required to facilitate comprehension of water main extensions are, utility plans, utility profiles, utility construction details, drawings of buildings and structures integral to the operation of the water system that are part of the application.

The Department maintains various web reports that can assist you in reviewing the progress of your permit application and these are available at; http://datamine2.state.nj.us/dep/DEP_OPRA/index2.html and click on Pending Permits Progress Reports.

Should you have any questions, please contact Wade Wertman at (609) 984-6831 or by e-mail at Wade.Wertman@dep.state.nj.us. When contacting the Department regarding this application always reference both the PWSID No. NJ1427002 and assigned Permit Application No. WCP080003.

Sincerely,

Anthony Adamo
Bureau of Water Systems and Well Permitting
