# General Camp & Class Details

## Program Coordinator

The coordinator ensures the quality of the program at your site. Please speak freely to them regarding any questions you may have. Please find out your coordinators name.

## Program Times

USSI requests that you drop-off and pick-up all children promptly. Please check the start and finish times of the program by asking the camp coordinator or visit our web site at: [www.USsportsInstitute.com](http://www.USsportsInstitute.com)

## Parent Observation

As parents you may want to stay and observe your child during the program; this is quite acceptable but we ask that if you do, please try to keep a distance that will encourage your child to participate and not depend on you. This is of particular importance when dealing with the 3-7 year olds

## Child Safety

USSI has systems in place to ensure the safety of children on our programs. Once players have been checked in they are placed into their correct groups. Every USSI coach is responsible for their own group. The coordinator is responsible for all groups and will ensure that safety is not compromised. Each coach will keep a group attendance form, with a list of the children in his/her group. This form is used to sign in and out children for the rest of the week. Children will always be supervised when taking water / bathroom breaks. Under no circumstances will a child be allowed to leave camp unattended.

## Sign In/Sign Out procedure

On the first day of the program please bring your child to the coordinator to sign in. After the first day you can sign in your child with their group coach. At the end of the day children will be placed in their groups ready to leave and it is your responsibility to see your child's group coach to sign out your child. Only then will they be allowed to leave. Please note that USSI will not allow a child to leave if a parent is waiting in a car or parking lot. The coordinator must have written consent given to them by the parent (not the child) if a child is leaving with someone other than their parent/guardian or if they are allowed to walk home alone.

## What to Bring

Children should have appropriate footwear (sneakers and maybe cleats), protection from the sun (hat and sunscreen), bagged lunch, snacks and plenty of water/fluids to last them the whole day. We recommend 4 liters per day. Many children run out of water, you can never give them too much.
